Applicant	:	Remacle et al.
Appl. No.	:	Unknown
Filed	:	Herewith
For	:	A METHOD FOR QUANTITATIVE DETERMINATION OF MULTI- DRUG RESISTANCE IN TUMORS

PETITION UNDER 37 C.F.R. § 1.84(a)(2) TO ACCEPT COLOR DRAWINGS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicant hereby petitions the Patent and Trademark Office to accept color drawings in the present application. Color drawings are necessary in the present application because black and white copies of Figure 1 do not adequately distinguish between the different results shown for each individual circle within the array depicted. For example, without the use of color, it is not possible to distinguish between the positive hybridization control, the negative hybridization control, the housekeeping gene and the darker circles of the positive detection control concentration curve.

This petition is accompanied by:

- (i) The fee under 37 C.F.R. § 1.17(h) is requested to be charged to a deposit account below.
- (ii) Three sets of color drawings are enclosed.
- (iii) A black and white photocopy of the color drawing is enclosed that accurately depicts, to the extent possible the subject matter shown in the color drawing.
- (iv) The paragraph required by 37 C.F.R. § 1.84(a)(2)(iv) is already present as the first paragraph of the brief description of the drawings.

Applicants : Remacle et al.
Title : A METHOD FOR QUANTITATIVE DETERMINATION OF MULTI-DRUG RESISTANCE IN TUMORS

Please charge the fee under 37 C.F.R. § 1.17(h), but not the fees for filing the application,
to Deposit Account No. 11-1410.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
